_ our mission

We care about finding Customised solutions for your innovative and sustainable packaging.

Your success today,
a **green** future tomorrow.

EL EZZ PLAST primary aim is to create a partnership with its customers, consolidating, with a continuous guarantee of quality and service, long existing relationships with "historical" customers and setting the basis for important growth and development on new markets.

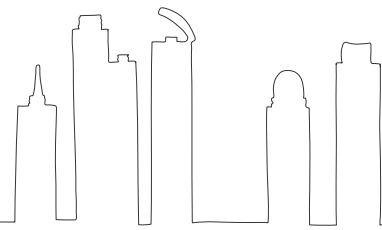

This is possible only looking at the success of today as a precious and essential tool to face the challenges of the tomorrow's market.

_ printing

G

flexo

Laminated tubes can be printed with a combination of different printing technologies. High printing speed and rapid drying inks are perfect solution to combine no limits creativity with good performances.

G

Hot stamp

The tubes could be enriched with hot stamping decoration from one to four colours with gold, silver and coloured foils, both brilliant

G

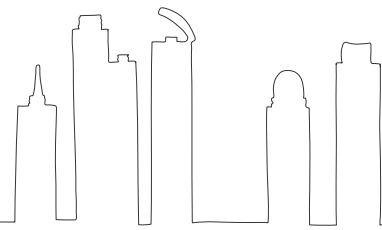

silk screen

The tubes could be printed with silk screen until 3 colours, with brilliant ink. Silk screen is used to emphasize amazing effects, brilliant intense colours, maximum precision in details.
